I. CHOOSING A CHILD CARE CENTRE

Finding high quality, convenient and affordable child care is an ever-present concern for parents across Nova Scotia. This booklet is designed to help you understand what to look for when choosing a child care centre for your child.

WHAT IS A QUALITY CHILD CARE PROGRAM?

A quality child care program is one that promotes a child's full development through a happy and safe environment, nutritious food and many opportunities for active learning and play. It helps children develop confidence, creativity, coordination, problem-solving skills and healthy relationships with others. Most important of all, it has staff members who relate well to children and care about their well being.

LICENSING

Under the Day Care Act, anyone operating a child care centre must be licensed by the Department of Community Services. Licensing ensures that these facilities meet the minimum requirements of the Day Care Act regarding staffing, nutrition, safety, programming and equipment.

WHEN CHOOSING A CENTRE, FIRST...

Begin by calling each child care centre to collect basic information on the services they offer. Before visiting a centre, you should call and find out:

- if it is licensed;
- the licensed age range of children;
- if there is any space available;
- if there is no space available, when it might become available and if you can add your name to the waiting list;
- the hours of operation, both daily and seasonal;
- how much it costs; and
- if it is subsidized

THE NEXT STEP

Arrange to visit the centre at a time when the director will be able to meet with you. Visiting a child care centre is considered to be the most important step in the selection process. Be observant and be prepared to ask questions.

Some important things to keep in mind when visiting centres and talking to directors, teachers and other parents are:

- staffing;
- program;
- environment and equipment;
- parental involvement.

STAFFING

Staffing is the most important consideration when choosing a centre. Staff should be warm and friendly. They should circulate among the group, spending time with each child and kneeling or sitting down to be at eye level. Staff should also treat children with fairness and consistency. All these qualities make children feel secure and positive about their surroundings.

The ratio of staff to children is also critical. An ample number of staff means better group supervision and increased opportunities for meeting the children's individual needs.

Training of staff is also important. There are a number of training programs in early childhood education available in the province. Ideally, all staff should have completed at least one of these programs.

PROGRAM

The program is the heart of the centre. It determines what your child will be doing during the day. A quality program provides:

- a choice of activities, some directed by the teacher and others chosen by the child;
- activities that are appropriate to the child's age;
- a regular, supervised rest period on a daily period (if a full day program);
- a schedule of daily activities planned in advance and available to the parents;
- outdoor activities (if a full day program);
- regular field trips and outings.

The program also includes the centre's established policies. Ask to see the parent bulletin board. The centre's license, menu, daily schedule, behaviour management policy, minutes of the last parents' meeting and evacuation plans must be posted.

Ask yourself if you are comfortable with the centre's policies regarding discipline, nap time and toilet training. No form of corporal punishment, threats, raised voices, shame or humiliation is permitted.

CHILDREN WITH SPECIAL NEEDS

Many centres in Nova Scotia now offer programs to include a child with special needs. Individual centres decide whether they will provide such a program. Differential funding to help cover the costs involved in modifying their program to meet an individual need is available to all licensed child care centres. Once a centre has approved the admission of a child with special needs, the Director may apply to Early Childhood Development Services for this funding.

For further information on differential funding or special needs programming, please contact Early Childhood Development Services at 424-6286.

ENVIRONMENT AND EQUIPMENT

Children need a comfortable, attractive and safe place for learning and living. Check to see if:

- the centre is bright, clean and attractive;
- there are lots of windows;
- there are posters and pictures at eye level for the children;
- the children's art work is displayed; and
- the playground is fenced in and free from hazards.

Every centre should have activity areas that promote play, creativity and learning. Check to see if the centre has the following play areas and equipment:

- library area: books in a quiet corner;
- block area: wooden blocks, cars and trucks;
- dramatic play house area: clothes and props for pretend play, puppets;
- creative arts area: crayons, easels, paints, paper, scissors and glue;
- quiet area: small table toys, pegboards, puzzles, playdough and objects for counting and classifying;
- physical activity area: musical instruments, records and record player, structures to climb on, such as monkey bars, and indoor and outdoor toys;
- water play area: basin and funnels, toy boats, sponges; and
- sand play area: sandbox, sand, buckets, shovels.

PARENTAL INVOLVEMENT

When you are researching a centre, ask the director about the role parents play at the centre. Parents should be able to join in as often as possible. Find out if, as a parent, you will be:

- welcome to visit anytime and to join in the program;
- welcome to spend a morning, lunch time or afternoon at the centre; and
- kept informed about changes and new programs that will affect your child.

Parental involvement should also be encouraged at a policy level. Find out:

- the date of the last parent's meeting;
- the activities of the meeting;
- how parents are kept informed through a newsletter and through notices on the parent bulletin board;
- if there is a parent advisory committee; and
- if there is a parent policy manual.

Also, ask about the centre's policy regarding:

- a child's illness;
- a child's late arrival or departure;
- arrangements for payment of fees;
- arrangements and fees for statutory holidays;
- fees charged during family vacation times;
- notice of withdrawal;
- fees for special events;
- emergencies;.
- supplies, such as diapers and formula, to be provided by the parents.

After you have collected all the information you need, you will be able to compare centres and select the one that best suits your needs and those of your child.

ONCE YOU HAVE PLACED YOUR CHILD...

Once you have placed your child in a centre, it is important to remember that your involvement doesn't stop at the curb. It is your responsibility to be aware of what is going on at your child's centre.

Get to know staff - Ask about any changes you have noticed in the running of the centre. Talk to the director and staff about your child's progress and let them know you appreciate their work.

Drop in from time to time - When no one is expecting you and pay attention to staff and children. Ask yourself if there is enough staff, if the children are eating nutritious food, and if you feel comfortable with what is happening.

Listen to your child - What does he/she say about life at the centre? If you are concerned about something, phone the director and set up an appointment to discuss the situation.

Attend parent meetings - Each centre must have regular parent meetings. Half-day programs must have one meeting every six months, full-day programs one every three months. These meetings offer you the opportunity to ask questions and find out about recent events or changes at the centre. They also offer the opportunity to share questions and concerns with other parents. It is this sharing of concerns, ideas and suggestions that increases understanding and leads to the most satisfactory child care experience for you and your child.

IN CASE OF A PROBLEM

If you have concerns about the child care centre, talk to the director. If the problem is not resolved to your satisfaction, speak to a member of the board of directors. If there is no board, bring it up at the next parent meeting. If the problem is not settled and it is having an effect on the care of children, contact your local Early Childhood Development Services representative at:

Early Childhood Development Services
Department of Community Services

PHONE: 424-5499 or 424-3430

II. HOW TO USE THIS DIRECTORY

Early Childhood Development Services is the section of the Department of Community Services responsible for the licensing and monitoring of child care centres in Nova Scotia. A license is required in order to operate a child care centre.

As part of its service, the Department provides this directory to help you locate and understand the range of child care centres available where you live. For those of you in major urban areas (Halifax, Dartmouth, Halifax County), you will find a map to help you find a child care centre. First, locate yourself on the map provided and determine its geographic name. Then refer to the list of centres located under that name.

You will notice that the information about centres is presented in a consistent fashion. In the first column is the name, address, telephone number and contact person of the centre. The second column says how many children the centre can have at any time. The third gives the age range of children the centre takes and the fourth indicates the kind of program offered. The following is a brief explanation of these terms.

A. CHILD CARE CENTRES: Child care centres may include full-day and part-day child care centres, pre-schools, nursery schools, parent cooperatives, child development centres, and programs for school aged children. In this booklet, the term 'child care centre' is used to include all types of licensed care. 'Private' refers to commercially operated centres, while 'non-profit' refers to centres operated by a Board of Directors. The term m.a. stands for mailing address. 'CDC' refers to a Child Development Centre.

B. LICENSED CAPACITY: The licensed capacity sets the limit on the number of children who can be present at the centre at any one time.

C. AGE RANGE: The age range limits the ages of the children who can attend.

D. TYPE OF PROGRAM:

   a. LENGTH OF CARE: This identifies the service available to families for either full-day or part-day care. Where full-day care is indicated, a lunch program is available. Some full-day centres offer care to cover a 7 a.m. to 7 p.m. shift; the hours are usually 6:30 a.m. to 7:30 p.m. This service is shown as "Extended Hours".

   b. SUBSIDY: Indicates that a day care subsidy program is available at the centre to assist eligible families with the cost of child care.

HOW TO GET A SUBSIDIZED SPACE IN A CHILD CARE CENTRE

WHAT IS A SUBSIDIZED SPACE? A space in a child care centre that the government will help the family pay for. It is for children 12 years old and younger.

HOW DO I KNOW WHICH CENTRES HAVE SUBSIDIZED SPACES? They are listed in the Directory.

HOW DO I GET A SUBSIDIZED SPACE FOR MY CHILD? Call a child care centre close to your home or place of employment to see if there are any subsidized spaces available. If there are no empty spaces, you can put your child's name on the centre's waiting list.

HOW MUCH WILL I HAVE TO PAY FOR THE SPACE? You will meet with a Caseworker when there is a space available for your child. Remember to bring proof of how much money you make (you can use your pay cheque stub) and your Social Insurance Number. The Caseworker will let you know how much you will pay for the space.

WHAT IS A SURCHARGE? A fee from some centres that is added onto the amount you pay.

HOW DO I PAY? You pay the child care centre, but it depends on the centre how you will pay and how often. (For example, the centre might want cheques or cash once a week).

4 STEPS TO A SUBSIDIZED SPACE:

1) Call the child care centre to see if there is a space open. If not, put your child's name on the centre's waiting list. You can put your name on as many waiting lists (at different centres) as you wish.

2) Meet with the Caseworker to fill out a subsidy application. Don't forget to bring proof of how much money you make (You can use your pay cheque stubs) and your S.I.N.

3) The Caseworker will let you know how much you pay.

4) Meet with the Director of the centre who will tell you how to make the payments to the centre.

Halifax City

A Halifax Central Area bordered by North Street, Chebucto Road, Quinpool Road, and Cogswell Street

FAMILY CHILD CARE PROGRAMS

Family Child Care programs provide care to children in approved homes in the community. Each program is administered by a director and staffed with home visitors who visit caregivers individually to assist with daily programming. Regular parent and caregiver workshops are sponsored by the program. For further information, please call Early Childhood Development Services at 424-6286.

EARLY INTERVENTION PROGRAMS

Early intervention programs in Nova Scotia are designed to meet the needs of families with children between birth and five years of age who are developmentally delayed or at risk for delay. Through regular home visits, parents are provided with the support and information they require to provide their child with an appropriate, enriched environment in which to develop.

Early interventionists are trained in infant/toddler development, special needs, and have experience working with families. An early interventionist refers children with special needs to a day care program, and helps to support the child's transition to that program. A listing of early intervention programs and coordinators follows.
